

Product Change Notification (PCN)

Date: 14th of July 2025

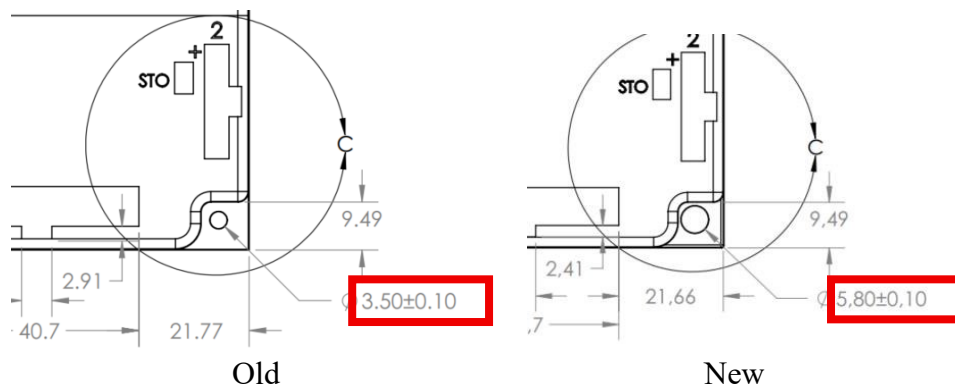

Subject: SBL(M)G2 and SBLG2 motor drive series plastic cover change

1. Product Information:

- **Part Numbers:**
 - SBLG2360T, SBLG2360TS, SBLMG2360T, SBLMG2360TS
 - SDGCG3260T, SDCMG3260T
 - SIMG2360T, SIMG2360TS, SIMMG2360T, SIMMG2360TS

2. Description of Change:

- **Type of Change:** Product Specification
- **Detailed Description:** The plastic cover of SBL(M)G2 motor drive families was changed. Specifically, the diameter of the screws opening on the plastic cover was changed from 3.5mm to 4.8mm.

- **Reason for Change:** There was significant feedback, it was identified that there were incidents where the plastic case was damaged due to the application of extreme torque on the mounting screws. Apart from this, there is the intention to provide multiple low inductance electrical connections between the chassis and the PCBA.

3. Implementation Schedule:

- **Change Effective Date:** 14th of July 2025

4. Impact on Customers:

- **Compatibility:** Customers may have issues with the length or the head of the mounting screws they are using.

5. Actions Required:

- **Customer Action:** Review changes, use the latest step file from RoboteQ website in your modeling. Clarify if screw part number change is required from your side.
- **Support and Assistance:** Our dedicated support team is available to assist you during this transition. For any questions or additional support, please contact us:
 - **Technical Support, using [Roboteq Helpdesk](#):** Get help with technical questions and product testing.
 - **Customer Service, e-mail sales.roboteq@mail.nidec.com, tel. +1 (480) 664-6660:** For order placement, tracking, and general inquiries.

Thank you for your attention to this matter. We appreciate your cooperation and continued support.
